

BOTTINEAU COUNTY  
ROAD PROJECTS PLANNING MEETING MINUTES  
FEBRUARY 23RD, 2015  
10:00 A.M.

A meeting was held with Brad Robertson, Wold Engineering, Ritchie Gimbel, Road Superintendent and County Commissioners, Dan Marquardt, LeRoy Rude and Lance Kjelshus. As there was a quorum present for the meeting, Lisa Herbel, County Auditor, joined the meeting.

Brad Robertson, reviewed the projects that are currently being considered by Bottineau County as this time –

-Project CMC-0530 – milling existing asphalt, blended base course and hot bituminous pavement on CMC Route 0530 at Forfar from US 83, thence east 11 miles to County line. The Engineers estimate at this time is \$4,548,759.12 and this project will be paid for with monies received from Senate Bill 2103. Brad reviewed the project plans. Discussion was held on adding a chip seal to this project as this would be covered under the Surge funding if it was included with the project planning.

-Project CMC-0503 – milling existing asphalt and hot bituminous pavement on Lansford North 11 miles to NDSH 5. The Engineers estimate on this project as this time is \$3,744,792.00 and will also be paid for with monies received from Senate Bill 2103. Adding a chip seal to this project was also discussed.

-Project CP-0506(15) – chip seal US Hwy 83 at Westhope, thence East to Souris 14.992 miles. The Engineers estimate is \$746,172.00 and will be paid for by Farm to Market funds as part of the 2015 budget. It was requested that Brad add the one mile to Landa to this project.

-Project CNOA-0527(054) – subgrade repair on four locations on CMC Route 0527, gravel county road from NDSH 5 thence north 6 miles to CMC 0506. The Engineers estimate is \$337,012.44 and will be paid by unspent oil impact funds from HB 1358.
